CONCRETE REHABILITATION

Building Solutions specialises in contractual work with the aid of highly dynamic, efficient and motivated staff. We are available to give advice and recommendations on the best products available and methods of repair. In concrete repair it is critical to identify and treat the cause of the deterioration whether it be carbonisation, chemical attack or mechanical damage. Your piece of mind comes from an engineered and managed solution giving consideration to structural integrity, service life and impact on day to day operations.

CONCRETE SERVICES

- Structural rehabilitation of collapsing concrete structures
- Concrete repairs
- Protection of concrete from chemical and acid attack
- Engineered exterior coatings for buildings
