# THIS IS WHAT OTHER SCHOOLS LIKE YOU HAD TO SAY ABOUT US

## Holland Park High

"This company was assigned the job to remove all asbestos from our Manual Arts building and replace all with new. This was a very difficult job with the amount of machinery/resources that were unable to be moved, but the company worked around these obstacles with professionalism.

This work was accomplished in a timely manner over the Christmas break and all was ready for school resumption. The outcome, due to the professionalism of this company, was we had all asbestos removed, new walls/ceilings replaced and the whole of the building painted for the start of the school year. I would recommend this company to any prospective client"

## Wynnum West State School

"The above company were engaged to upgrade our old Activity Centre. The work was completed over the Easter Break in order to have no interruption to our normal school day or routines. The company removed the asbestos and then re built and restored the activity centre. New walls, new ceiling were installed in the project. This activity centre is used each day by the local PCYC for after school care and also by many students of our school. It is now an enjoyable room to be utilised by all. The company were very easy to work with, the timeline given was kept to and the workers were willing and followed the correct school procedures and policies. The project ran smoothly from the first consultation to completion of all work promised."

## Yeronga State High School

"I am writing to thank you and your company for the excellent work done over the last Christmas holiday period. The work (Asbestos removal/vinyl and sheeting replacement) was completed to a high standard and within restricted time frames. I, especially, was appreciative of the ease of contact with you as the project manager for our school work. I would not hesitate to recommend your company to prospective clients."

## Slacks Creek State School

"We have been impressed with the smooth running of these works, the regular communication with school personnel and co-ordination of works to suit school needs. The works were completed to an excellent standard, with due regard for safety and within expected timelines communicated to school staff before commencement.

We would recommend Building Solutions Brisbane as a reliable company that makes the whole process as uncomplicated as possible."
