COMPANY STRUCTURE

We are pleased to announce that Michael Slater has joined the company as CEO. Michael has strong leadership skills (previous Director of "The Aerify Group" in Australia and Structural Maintenance in South Africa) and also has a background in Structural Civil Engineering specializing in structural remedials. He is a member of the Concrete Institute and Australian Concrete Repair Association. Michael has a relationship with the Queensland Asbestos Association dating back eight years. Michael's initial emphasis will be to ensure clients are being looked after, work is carried out safely & efficiently, contracts are completed on time with a minimum of fuss and within the client's budgets.

SAFE WORK

We at Building Solutions Brisbane want to ingrain a culture of safe working and to contribute towards a safe working environment. Our minimum requirements for every job are now to provide a JSEA (Job Safety analysis) and to conduct daily site toolbox meetings.

WORK METHODS

A W.M.S will be provided for all jobs to assist in achieving the desired expected outcome for the client.

QUALITY CONTROL

We endeavour to provide a quality outcome for our clients at a fair price and have QA procedures to assist with this.

MANAGEMENT SYSTEM

We are finalising a management system that we will be rolling out to integrate all aspects of our services in the future.

ENVIRONMENTAL

Think green - rethink, redesign, restore, recycle, refocus and reuse has been introduced in consideration of the environment.

NEW SERVICES

We have recently registered with the Queensland Government as friable asbestos removalists. The registration will enable us to conduct Asbestos removal as a service we offer along with contaminated land rehabilitation.
