BUILDING SOLUTIONS BRISBANE

Building Solutions Brisbane Pty Ltd is a dynamic company that specialises in bespoke contracting works. Services are offered to clients throughout Queensland. Our tailored skills and innovating solutions place us as recognised leaders within our fields. We are committed to ensuring the highest possible standards are achieved throughout all company sectors and we pride ourselves on our adherence to safety, delivering on deadlines and most importantly – budget.

RECENT DEVELOPMENTS

Building Solutions Brisbane (BSB) is coming off their most successful Financial Year to date having completed two separate structural repair packages for the Brisbane City Council and maintenance works on the prestigious Gateway, Walter Taylor and William Jolly Bridges. New relationships have forced expansions to our client-base, office facilities and staff team and we're showing no signs of slowing down.

In addition to Quakewrap's PileMedic and Stifpipe systems, BSB have now become Authorised Installers of the revolutionary Centri-Cast system which is a tailored delivery method paving the way for affordable structural relining of culverts. These additional specialities allow BSB to further broaden and develop their expertise enhancing their service offering and delivery on their mission – delivering quality workmanship at a fair price.
