To Whom it may concern

This letter is a reference for Building Solutions Brisbane.

This company was assigned the job to remove all asbestos from our Manual Arts building and replace all with new. This was a very difficult job with the amount of machinery/resources that were unable to be moved, but the company worked around these obstacles with professionalism.

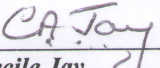

This work was accomplished in a timely manner over the Christmas break and all was ready for school resumption.

Another obstacle with this job was that we had already commissioned a company to give the whole building an internal repaint however again the company worked with us and the painting company to achieve the removal and replacement and repaint in the agreed timeframe.

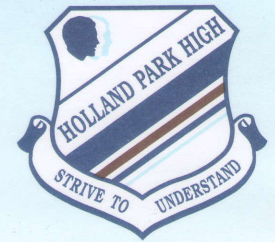

The outcome, due to the professionalism of this company, was we had all asbestos removed, new walls/ceilings replaced and the whole of the building painted for the start of the 2012 school year.

I would recommend this company to any prospective client.

Yours sincerely

Cecile Jay
Business Services Manager
