BUILDING SOLUTIONS BRISBANE PTY LTD

2012 has been another successful year for Building Solutions Brisbane. Not only do we continue to provide a perfect safety record year on year, we have been committed to ensuring that only the highest of standards are present throughout the company. This year we are proud to have been commended by a number of clients for our exceptional quality and ongoing, friendly customer service. We firmly believe that we are fulfilling the needs of our clients as we consistently complete our work safely, on time and within budget.

HIGHLIGHTS FOR 2012

Our core, select customers were given the benefit of an improved safety system this year. In addition, a number of new staff have been welcomed to the Building Solutions Brisbane team. Their capability and passion in the industry shows promise for the future and we look forward to expanding our abilities as a company with their help. Furthermore, Building Solutions have completed a number of interesting and challenging projects over the past year. Several notable projects are listed below:

- Brisbane City Council
Story Bridge beam remedials
- Ipswich City Council
Concrete roads and footpaths
- BP Refinery
Structural remedials and fireproofing
- QBuild
Removal of asbestos and subsequent rebuilding at schools

FINAL THOUGHTS FOR THE YEAR AHEAD - 2013

In 2013 we look to take on new challenges and expand our ability to meet our customers' needs. A major step in that direction is the relocation of our company to new and larger premises with which to accommodate our growing selection of specialist equipment and team size. As always, safety is our number one priority and we are continuing our efforts to satisfy this goal by providing specialised staff training and as a minimum for our projects, a Job Safety Analysis and Work Method Statement. 2013 looks to be promising and we are excited for what the future holds at Building Solutions Brisbane.

This year we visited the World of concrete in the USA to keep ourselves up to date with the latest ideas and technology which flows on to our clients.

WHO ARE WE?
