**F: 07 3399 4822**  
**ABN 80 069 968**

To whom it may concern

Building solutions Brisbane have been associated with Parchem for the past 12 years. During this time, Michael Slater, Duane Galloway and Kevin Roberts have completed works including concrete repair, cement and epoxy based lining systems, joint sealing and coatings.

The above Staff Members have attended training conducted by Parchem on a range of products, that include concrete repair, waterproofing and joint sealing.

Michael, Duane and Kevin have applied our products to our satisfaction and we would be happy to recommend them, for application of our products, for any of the above mentioned product groups.

Regards

Geoff Seamer

Key Account Manager  
Product Specialist – Concrete Durability
